

Ask Senator Hutchison to reverse her support of Roe

January 22, 2009, marks the 36th anniversary of the US Supreme Court's tragic *Roe v. Wade*. In that unprecedented decision, the court struck down Texas' law that had been on the books for more than a century protecting unborn babies and their mothers from abortion, making abortion on demand legal in all 50 states throughout all nine months of pregnancy. In the wake of *Roe*, nearly 40 million unborn babies have been legally killed and countless women have been physically and emotionally harmed.

This month we ask you to demonstrate your opposition to *Roe* in two ways.

First, make plans to attend and help to promote the Texas Rally for Life at the Capitol in Austin on Saturday, January 24. (See the information at right.)

Second, write a short email to U.S. Senator Kay Bailey Hutchison asking her to reverse her support of *Roe v. Wade*. Senator Hutchison has made it known that she is considering running for the Governor of Texas in the 2010 election. Yet, in 2003 she strongly endorsed *Roe*, by voting for the following resolution:

- (1) the decision of the Supreme Court in *Roe v. Wade* was appropriate and secures an important constitutional right; and
- (2) such decision should not be overturned.

Texas does not need a governor who supports *Roe v. Wade*.

Dear Senator Hutchison,

Please reverse your support of *Roe v. Wade* and the destruction of innocent babies on demand in Texas and in this nation. I cannot begin to support any candidate for governor who supports *Roe*.

Sincerely,

Your name and address
